DURON SEAMLESS COATING SYSTEMS

FACT SHEET no. (7) DOMESTIC care/maintenance

CARE AND MAINTENANCE OF YOUR NEWLY COMPLETED SEAMLESS FLOOR:

Note:

Duron recommend a minimum of 24 hours before any foot traffic and a minimum of 7 days for any vehicles or heavy furniture. We highly recommended that carpet squares or similar be placed under vehicle tyres and heavy furniture to protect the floor whilst curing.

Note: Whilst coatings are tyre resistant and most tyres do not mark; there can be no guarantees against Tyre Chemical Bleed, leaving protection under tyres indefinitely is advisable.

Regular Cleaning / Maintenance:

Broom or vacuum when required, if really dirty scrub floor with a recommended mild detergent and soft broom, then hose out or mop allowing to dry.

Major Maintenance:

Duron recommend you have your coated surface inspected by a professional coating installer around the 5 year period or sooner if showing signs of wear; the floor may require a commercial machine scrub wash, light sand and the application of a further 1 or 2 coats of reglaze to maintain and keep the coated surface in pristine condition.

PLEASE ENSURE YOU HAVE READ AND UNDERSTAND ALL DIRECTIONS BEFORE PROCEEDING WITH THE DURON COATING SYSTEM.

Thank you for choosing Duron Coating Systems. We are confident that you will be happy with our products. For any further information please do not hesitate to contact our team.

DISCLAIMER:

The above information is given in good faith as a suggested guide in the preparation and use of Duron coating systems, no guarantee or warranty is expressed or implied. Any circumstances not covered by this guide should be referred to Duron Pty Ltd or its distributors for any particular attention required. There are however, many factors that may affect the outcome of individual projects using our products that are beyond our control. Duron Pty Ltd cannot be held responsible for poor climatic conditions, inadequate surface preparation, inadequate mixing, poor application techniques, non compliance with curing times, improper thinning of coatings or any other variable beyond our control. No liability will be accepted by Duron Pty Ltd, our employees, distributors, representatives or agents, for any loss or damage, direct or indirect that may result from the use of information and/or suggestions as actual conditions for use that are beyond our control. All materials should be checked and tested for their suitability for prevailing conditions on all individual sites.
